# HUNTING WITH PURPOSE: A LEGACY OF CONSERVATION

Do you hear the call to walk the trails of tradition and reclaim a time-honored role in the cycle of life? Then pack your bags and get ready to immerse yourself in a life-changing African odyssey.

Welcome to Rockwood Conservation, nestled in the vast heartland of the Northern Cape Province of South Africa. Rockwood is a privately owned nature reserve that protects one of the largest populations of rhinos on the planet. Our thriving population of more than 400 Southern White Rhinos is a testament to our highly successful and progressive approach to conservation. We hunt with purpose, to leave a legacy of conservation.

Consider this your invitation to join us and express your love for the hunt, spirit of adventure, and passion for protecting our natural heritage for future generations.

# SET YOUR SIGHTS ON THE HUNT OF A LIFETIME

Pack the adventure of a lifetime into a few days when you set out to Hunt for Change in the magical African bush and experience the hunt as the trophy. Led by the principle of fair chase, our local professional hunters skilfully guide rifle and bow hunters alike. Integrity is at the center of our offering, and our guests have peace of mind that the landowner facilitates their hunt at every stage.

## Your authentic African encounter includes:

- Big trophy selection of excellent quality and variety
- Bring your own trusted rifle or choose from our wide selection of hunting rifles
- One of the safest areas to visit in South Africa
- Malaria-free zone
- Ten blinds provide excellent bow-hunting opportunities

No matter how you choose to engage, we offer you the benefit of customizing your experience.

# BEYOND THE CROSS-HAIRS: UNITING HUNTING & CONSERVATION

When you Hunt For Change, you're providing an invaluable financial contribution to conservation and the livelihood of our people; ensuring a purposeful adventure matched only by the thrill of the chase. Our ultimate goal is to witness a flourishing and safe rhino population, unshackled from the severe threat of poaching.

The proceeds from your safari safeguards the future of one of the world's most endangered species: The Southern White Rhino. At Rockwood, we don't breed to hunt; we hunt to protect.

## The Rockwood Conservation Way:

- Every activity hosted at Rockwood contributes to rhino conservation
- Selective rhino hunting provides the financial means to care for the entire population
- Our thriving population of more than 400 white rhino is a testament of our highly successful and progressive approach to conservation (last rhino poached in 2015)
